

30 YEARS OF HISTORY,

innovation and design, tailored to perfectly fit you...

ZIPSCREEN™

ZipScreen™ is the ultimate external screening solution for any outdoor area or window. Zipscreen utilises patented z-LOCK technology to zip-guide the fabric and create a fully sealed, ultra-smooth fabric finish, to protect against sun, wind, rain, and insects all year round. Enclose any alfresco entertaining areas or keep home and office windows covered. Sleek, secure and durable, your custom designed system can be made in widths of up to 4 meters and drops of up to 3.5 meters.

wind specifications (1% openness)

The Chart are based on theoretical calculations using the following:

Stainless steel 4mm rivets or #8 Tek screws to secure side rails at 500mm spacing for side and face fix applications.

Maximum allowable wind speeds (km/h) using solid fabric or 5% fabric openness.

Fabrics with larger openness do not worsen results.

BEAUFORT WIND SCALE

The Beaufort Wind Force Scale estimates wind strength based on the effects wind has on the physical environment.
